WWW <https://github.com/adrianrdz9/>

Solution-driven Web Developer adept at contributing to highly collaborative work environment, finding solutions and determining customer satisfaction. Proven experience developing consumer-focused websites using Laravel and tools from its ecosystem (Nova, VueJS/Inertia, Livewire, Horizon, Scout, Cashier, etc.). Built products with other stacks and open to learn when the solution space is outside laravel. Designed and developed web applications, desktop applications and cross-platform mobile applications using Laravel and Flutter.
